**Notice Regarding Consolidated Subsidiary (Takara Shuzo International Co., Ltd.)
Acquiring Shares in 2241559 Ontario Limited,
a Canadian Producer and Distributer of Sake and Other Alcoholic Beverages**

Takara Holdings Inc. (the “Company”) hereby announced today that on May 8, 2023, that Takara Shuzo International Co., Ltd. (“Takara Shuzo International”), a subsidiary of the Company, acquired 80.0% of the shares issued and outstanding of 2241559 Ontario Limited (Ontario Spring Water Sake Company, hereinafter “Ontario Limited”), a producer and distributor of sake and other alcoholic beverages in Canada, and made it a consolidated subsidiary of Takara Holdings.

1. Reason for Acquiring Stock

In TaKaRa Group Challenge for the 100th (TGC 100), its long-term management vision toward 2026, the Takara Group adopts the management policy of further improving technological capabilities, product attraction, and brand appeal and 2 offering diverse values in the washu (Japanese traditional alcoholic beverages) and Japanese food market and life science industry, thereby increasing its presence in Japan and overseas and achieving sustainable growth and major advances. Under this policy, the Group operates its business.

The Takara Shuzo International Group, which is responsible for overseas business, is working to strengthen its business foundation in coordination with its Group companies in Japan and overseas with the aim of becoming the No. 1 global washu and Japanese food company.

Based on this policy, Takara Shuzo International acquired 80% of the shares issued and outstanding of Ontario Limited, which produces and sells sake and other alcoholic beverages in Canada. Ontario Limited, established in 2010, is the only sake brewery in the eastern provinces of Canada and is engaged in the business of producing and selling sake (“IZUMI” brand), primarily for the Japanese food market, as well as sake-based cocktails (“sake cocktails”) that are outside the realm of traditional Japanese sake.

Toronto, Ontario, where Ontario Limited operates, is Canada’s largest city and at the heart of the country’s economy, and is expected to continue to develop economically in the future.

By making Ontario Limited a consolidated subsidiary and establishing the Group’s first production and sales base for Japanese sake and other products in the Canadian market, where future growth is anticipated, we will continue to expand our global network, including our overseas Japanese food wholesale business.

Japanese cuisine is garnering attention from around the world against the backdrop of an expanding global market for Japanese foods as awareness of health-related issues has risen in recent years. Along with this, sake and other Japanese alcoholic beverages are also seen to be gaining in popularity. Now, together with traditional sake, producers are brewing “innovative SAKE*” that is not bound by the conventional concept of sake, but rather is tailored to the local region and food culture. In addition to its traditional sake production, the Group also intends to further strengthen “innovative SAKE” development to expand the boundaries of Japanese sake to meet local needs.

The Takara Group will promote Japanese food culture to the world and aim to be a global market leader in washu and Japanese food.

*1 Innovative sake: Innovative Japanese alcoholic beverage that expands the sphere of conventional *washu*
